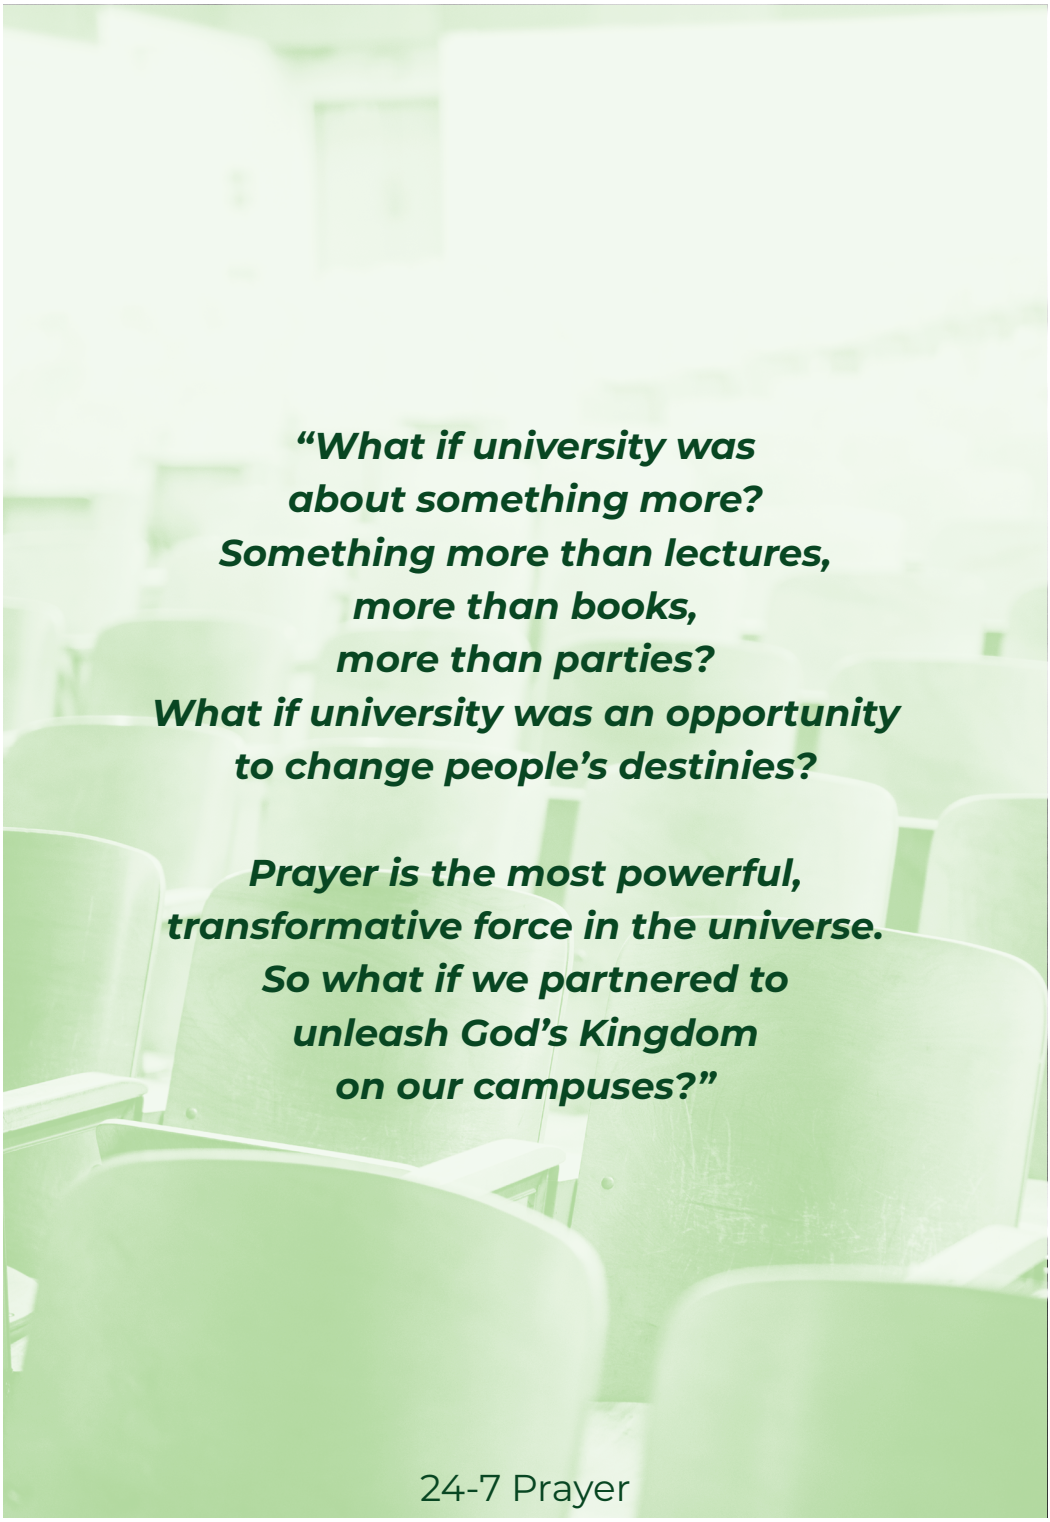
St Swithin's Walcot
PRAYING FOR BATH'S STUDENTS AND UNIVERSITIES



"What if university was
about something more?
Something more than lectures,
more than books,
more than parties?
What if university was an opportunity
to change people's destinies?

Prayer is the most powerful,
transformative force in the universe.
So what if we partnered to
unleash God's Kingdom
on our campuses?"

Pray for Students

For settling in.
For friendships.
For the relationships between staff and students.
For courses, assignments and exams.
For flourishing.
For new opportunities.
For creative community and inspiration.
For safety and wellbeing.
For houses and accommodation issues.
For student support.
For finance.
For wrestling with world-views and exploring faith.

Pray for students connecting with wider community

For the young people who are committed to the city long term (1/5 of our students in Bath are originally local).
For the large number of young people in our parish. (According to the 2011 census, our largest age demographic in our parish are those between the age of 15 and 29.)
For opportunities for St Swithin's to bless and partner with the universities.
For the practical impact of growing universities on the city.
For the contributions of the universities and students to the local economy.
For the contributions of students to the charity sector.
For the contributions of students to local industries.

Pray specifically for Sion Hill

For exhibitions, lectures, field trips, seminars, presentations and crits.
For facilities and resources on Sion Hill (Cafe Sion, art shop, library, workshops, studios, offices).
For migrating the Art and Design Department to Locksbrook Road in 2019.
For the future purpose of Sion Hill following September 2019.

Pray broadly for the University Communities

For the students (20,000+ total undergraduate students in Bath).
For the staff and Faculty (the two universities are among the largest employers in the area).
For boundary-breaking research.
